PROFESSIONAL SUMMARY

Enthusiastic and fast-learning Business and Information Technology student at Strathmore University with a proven track record in building scalable platforms and leading technical teams. Solution-oriented developer who thrives in collaborative environments and is eager to tackle complex challenges in full-stack development.

TECHNICAL SKILLS

- **Front End:** HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js
- **Back End:** Java, Node.js, Python, Django
- **Database:** PostgreSQL, MySQL, Supabase
- **Tools:** Git, GitHub, Postman, PostHog

WORK EXPERIENCE

Co-Founder & Technical Lead | Amafit | 10/2024 – Present

- Architected and launched a cross-platform mobile application using React Native (Expo) and Supabase, successfully scaling the user base to 300+ active users.
- Engineered a custom dance-tracking logic that monitors user progress and engagement, leveraging Supabase as a Backend-as-a-Service (BaaS) for real-time data synchronization.
- Own the full software development lifecycle (SDLC) as the sole developer, managing everything from UI/UX implementation to database schema design and deployment.

Co-Founder & Technical Lead | Kreate Studios | 12/2019 – 12/2023

- Translated high-fidelity UI/UX designs into functional, responsive web applications for various client projects, ensuring pixel-perfect implementation.
- Operated as a technical consultant for diverse clients, advising on tech stacks and delivering scalable code for design-centric service solutions.
- Managed end-to-end delivery of client websites and internal tools, bridging the gap between design aesthetics and technical feasibility.

Software engineering Intern | FindJobo | 01/2023 – 06/2023

- Developed a dual-sided web platform using Next.js, creating tailored user experiences for both recruiters and internship seekers.
- Built an automated resume generator that dynamically renders professional PDFs based on user-input data, significantly reducing the time required for applicants to apply for roles.
- Integrated Firebase for frontend state management and real-time data fetching, ensuring a responsive and low-latency experience for job seekers.

PROJECTS

HooscoredIt – Mobile app | 01/2021 – 12/2021

- Prototyped a sports management app using React Native and Expo, specifically designed for real-time entry of soccer matchday statistics.
- Implemented a fixture generation algorithm to automate the creation of tournament schedules and league tables.
- Integrated Firebase Realtime Database to handle stats synchronization, allowing for instantaneous updates to scores and player profiles.

EDUCATION

BSc Business and Information Technology | Strathmore University | *Expected*

Graduation: 06/2027

- **Relevant Modules:** Software Engineering, Web and Internet Technology, Java, Algorithms and Data Structures, Systems Design, and Security.

HONORS & AWARDS

- **Champion, Nile Special Rugby Premier League | Black Pirates Rugby Club | 2023:**
 - Competed at the highest level of Ugandan rugby, contributing to a championship-winning season through elite teamwork and physical discipline.
 - **Winner, Uganda Inter-Schools Golf Championship | King's College Budo | 2022:**
 - Represented King's College Budo in a national-level tournament, securing 1st place.
-
